I. DEFINITION

An international film is defined as a feature-length motion picture (over 40 minutes) **produced** outside the United States of America and its territories with a predominantly (more than 50%) non-English dialogue track. Animated and documentary feature films are permitted.

II. ELIGIBILITY

- A. The country-selected film must be first released in the country of origin no earlier than December 1, 2022, and no later than October 31, 2023, and be first publicly exhibited for at least seven consecutive days in a commercial motion picture theater for the profit of the producer and exhibitor. In order for films to more easily meet theatrical exhibition requirements, the Academy will allow films to qualify outside the country of origin, provided the film is theatrically exhibited outside of the United States and its territories for at least seven consecutive days in a commercial motion picture theater for paid admission.

Submissions must be in 35mm or 70mm film, or in a 24- or 48-frame progressive scan Digital Cinema format with a minimum projector resolution of 2048 by 1080 pixels, source image format conforming to ST 428-1:2006 D-Cinema Distribution Master – Image Characteristics; image compression (if used) conforming to ISO/IEC 15444-1 (JPEG 2000); and image and sound files packaged as Digital Cinema Packages (DCPs) in the “SMPTE DCP” format. SMPTE DCP refers to SMPTE ST 429-2:2020 D-Cinema Packaging – DCP Operational Constraints and related specifications. (Blu-ray format does not meet Digital Cinema requirements.)

The audio in a Digital Cinema Package (DCP) is typically 5.1 or 7.1 channels of discrete audio. The minimum for a non-mono configuration of the audio shall be three channels as Left, Center, Right (a Left/Right configuration is not acceptable in a theatrical environment). In addition to channel-based audio, object-based audio may also be present as an immersive audio bitstream.

The discrete audio data shall be formatted in conformance with SMPTE ST 429-3:2007 D-Cinema Packaging – Sound and Picture Track File, SMPTE ST 428-2:2006 D-Cinema Distribution Master – Audio Characteristics and SMPTE ST 428-12:2013 D-Cinema Distribution Master Common Audio Channels and Soundfield Groups. - F. Should a selection committee not disclose up-to-date and/or accurate information related to a submitted film's citizenship, business-related affiliation or credit on a selected film, designated credits, production details and release information, a film will be deemed ineligible.
- G. The International Feature Film Executive Committee shall resolve all questions of eligibility and rules.
